

Sappi Guard Nature 1-MS

Mineral oil barrier paper-based packaging solution.

sappi

Innovative and sustainable solution

Sappi Guard Nature 1-MS is a paper-based packaging solution with integrated mineral oil (MOSH/MOAH) barrier and heat sealability. The solution is a sustainable alternative to multi-layer barrier films. The food inside is protected by inner bags, pouches and sachets made from mineral oil barrier papers.

Applications

Designed for the food industry: for inner bags of dry food (e.g. rice, pasta, powder and cereals).

Features

- Integrated paper based solution
- Sustainable barrier against mineral oil (for a minimum of 15 months)
- Heat sealability
- Recyclable in the paper waste stream
- Good printing results and good openability
- Suitable for direct food contact
- Good converting properties

Benefits

- Food-safe material
- Natural paper appearance
- High value impression
- Environmentally friendly solution

Product specification Sappi Guard Nature 1-MS

Characteristic:	Uncoated paper with heat sealable and barrier coating on reverse side
Grammages:	80, 95, 110 and 125 g/m ²
Print:	Suitable for flexo printing
Barrier properties:	Effective mineral oil barrier and grease resistance of Kit 12 (this value is derived from a modified grease resistance test)
Heat sealability:	Recommended minimum sealing temperature (at 0.5s) of 120° C (80g/m ² and 90g/m ²) and 130° C (110g/m ² and 120g/m ²)
Certificates:	Suitable for direct food contact, the paper is available PEFC™(PEFC/07-32-76) as well as FSC™(FSC™ C015022) certified
