

Inkjet Papers

Outstanding quality in large formats

Inkjet Papers in large formats

Large Inkjet Papers for diverse needs

For large-format inkjet printing, Sappi offers coated papers with a width of up to 3.10 metres. Our range includes papers for water-based, solvent-containing, UV-curing inks and HP Latex inks.

Our Inkjet Papers are designed for indoor and outdoor applications such as poster and technical prints in the construction industry (CAD/Engineering drawings) as well as outdoor purposes such as city light and mega-light systems.

Your sustainable partner

Sappi uses natural, renewable resources to create sustainable consumer products for our society. We are driven by sustainability and incorporate it into all aspects of our operations.

Our Large Format Inkjet Papers are available with FSC™ (FSC™ Co15022) certification and offer a sustainable printing medium.

Product Portfolio

| | PRODUCT NAME DESCRIPTION | GRAMMAGE G/M ² | SPECIAL FEATURE | SUITABLE INK SYSTEM |
|---------|---|------------------------------|---|---------------------------------------|
| INDOOR | Swiss Matt One side coated, high-quality paper for excellent and consistent colour results. This inkjet paper impresses with its high whiteness with a blueish shade, nuance reproduction and excellent runnability. | 90, 100, 120, 140, 180 | <ul style="list-style-type: none"> Enhanced whiteness with blueish shade Matt and smooth surface High colour density and good line sharpness Quick drying of dye and pigmented inks Immediate encapsulation of pigmented black (no abrasion) High scratch resistance Excellent water resistance Excellent wet-smear resistance | dye, pigmented |
| OUTDOOR | Scrolljet Coated inkjet paper with a consistent, high quality. The special surface treatment delivers brilliant colour results that provide exceptional luminosity for front and back-lit applications (day/night operation). | 175 | <ul style="list-style-type: none"> Extremely tear resistant & durable; tested over 100'000 rotations Additional processing steps such as lamination are superfluous Identical colour rendition during day or night time (front and backlit operation) Homogeneous paper formation, especially favourable for backlit applications Approved by out-of-home agencies | hard-solvent, UV curable, latex |
